

Dear,

..... just Adopted an Acre in your honor.

This donation will help get fresh food from the field to the mouths of the people who need it.

Farmers Ending Hunger is committed to eliminating hunger in Oregon.

Our fight against hunger begins with the farmers and ranchers who donate a portion of their harvest. Local food processors donate their services to prepare the food. Individual cash donations help us complete our mission.

The additional costs for product sorting, processing, packaging, storage and trucking to get that food to the hungry are covered by your donations. Thank you!
